## Caring for SailBot

We've taken great care to design SailBot to be weather resistant and provide years of reliable service.

To keep your unit looking and functioning like new it is important to care for SailBot as you would any other electronic device in a marine environment.

- Do not submerge SailBot or place it in a location prone to splashing
- Do not allow water to pool in the power switch for prolonged periods
- Insert splash protector into charging port whenever not charging
- Remove salt spray by lightly rinsing with fresh water upon return to dock
- Dry unit with a clean towel after each use

SAILBOT SPORT/MAX

SAILBOT CLASSIC

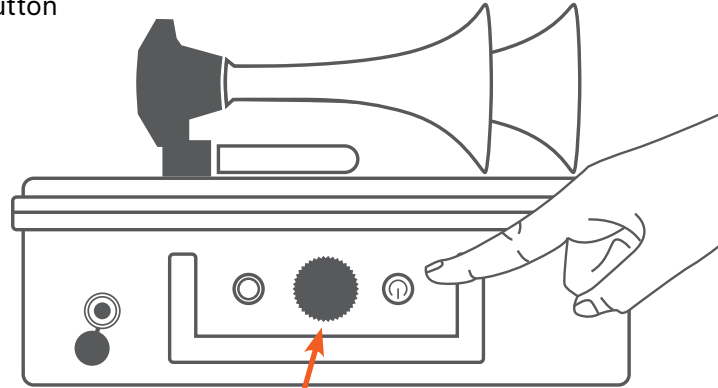

## To charge SailBot

- Plug charger into wall
- Flip splash protector from charging port
- Insert jack completely into charging port\*
- We recommend NOT fastening retaining ring
- For maximum battery life, keep SailBot connected to charger when not in use

**\*ALWAYS disconnect the charger from SailBot before use! Leave the charger in the club please.**

Turn SailBot on and off using the silver push-button power switch located on the unit.

Button illuminates when power is on.

SAILBOT SPORT/MAX

SAILBOT CLASSIC

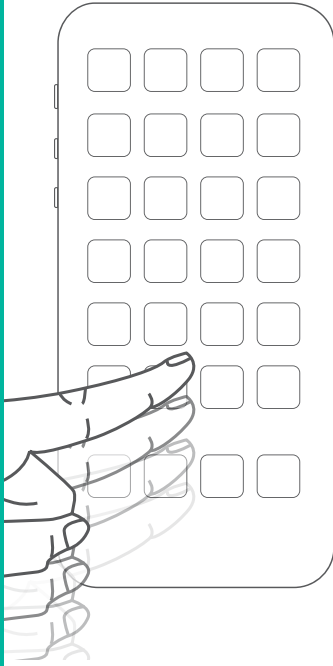

**NOTE:**

SailBot Sport & MAX have a threaded air valve that may be closed during non-use to provide additional water resistance.

Please verify that this valve is open during operation so the air pump has enough airflow for horns.

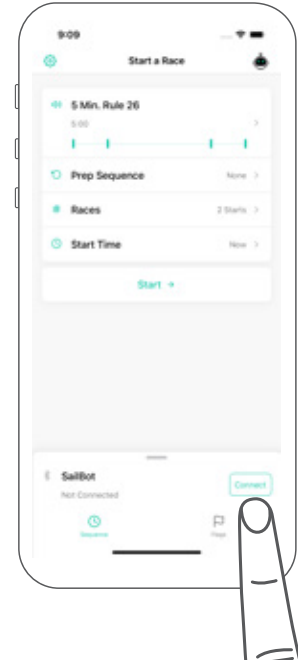

**Step One:** Make sure SailBot is turned on, then:

Activate Bluetooth on mobile device/tablet

Open SailBot app

Tap "Connect"  
(battery status displays  
when connected)

As a backup to the in-app manual horn button, there is a manual push-button on your SailBot that can be used to manually fire the horn.

This button is active any time that the power button is illuminated.

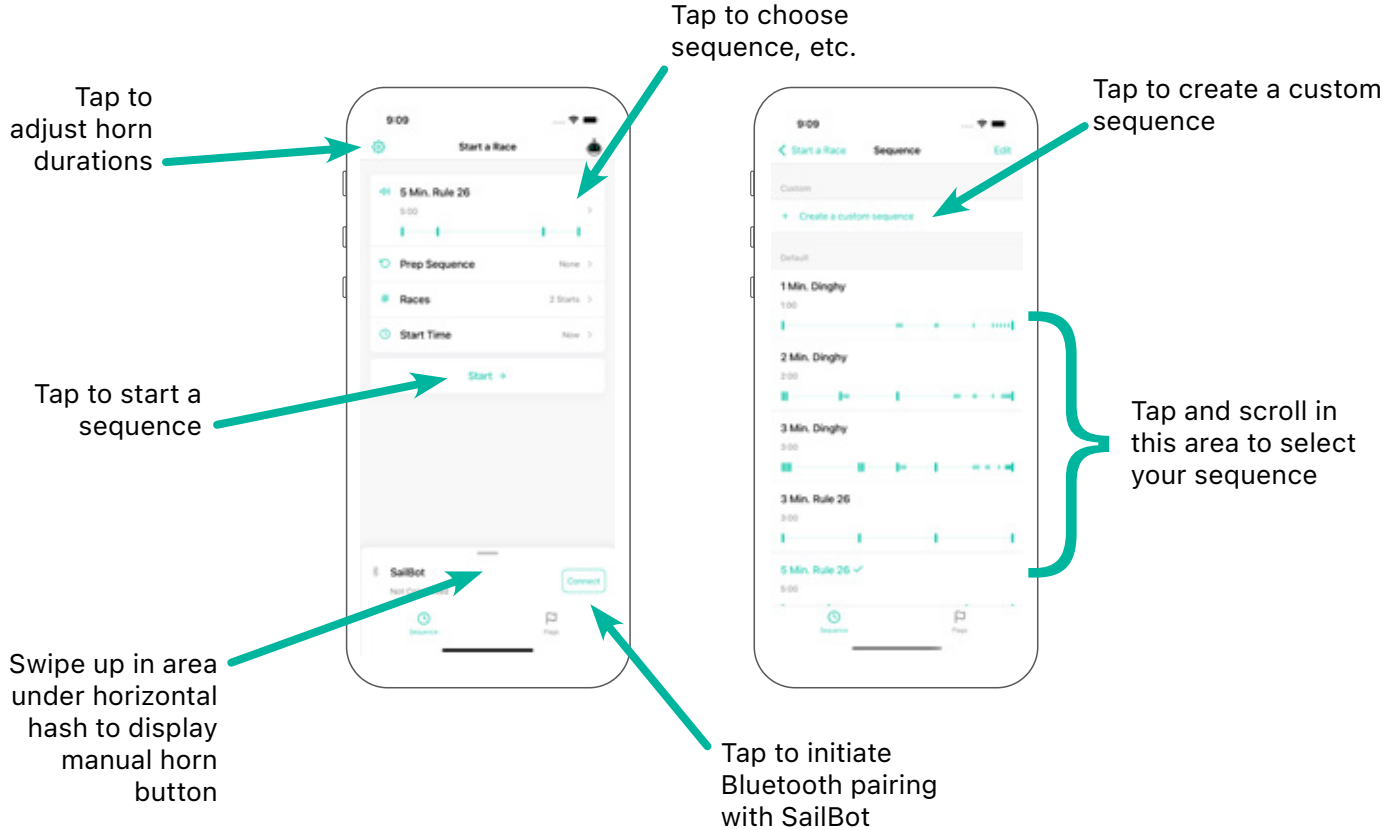

*This button may interrupt Bluetooth connection... use in-app manual button during a sequence.*

SAILBOT SPORT/MAX

SAILBOT CLASSIC

Place SailBot in a safe location away from Race Committee ears and turn unit on. SailBot's battery can last all day so no need to turn on and off between races.

*Always secure SailBot to boat!*

Starting a race with SailBot is incredibly simple. Experienced Race Committees appreciate the freedom to focus on flags and calling OCS. Less seasoned volunteers love its simplicity and ease of use.

Open SailBot app

Tap "Connect"

Choose desired sequence

Tap "Start"

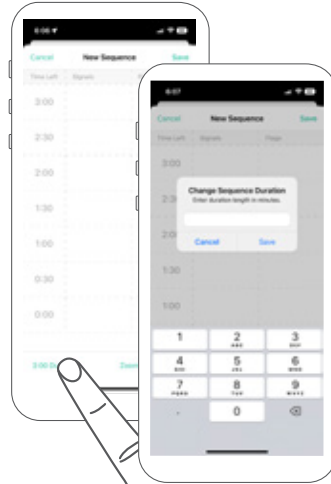

The SailBot app allows your Race Committee to select from any standard starting sequence with ease. SailBot is truly unique with the ability to create custom start sequences. These can be created once then shared by email with anyone else who has Race Committee duty at your organization!

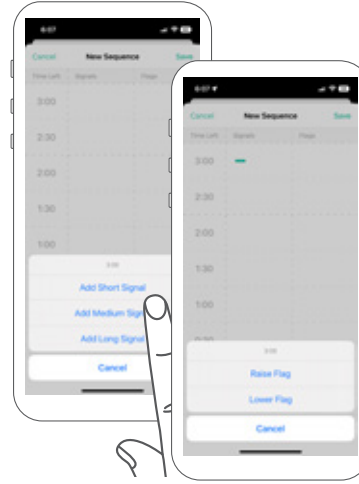

Extensive video tutorials are available on our YouTube channel. Scan code above or visit: [www.youtube.com/@sailbot](http://www.youtube.com/@sailbot)

On sequence selection screen, tap "Create a custom sequence"

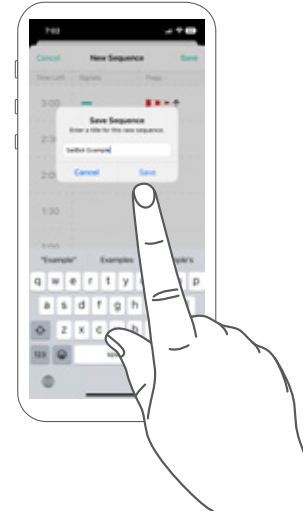

Set total sequence duration

Tap time box where you'd like a horn then select length of signal (same for flag reminders if desired)

To see more/less detailed time increments, tap Zoom In and Zoom Out

When the new custom sequence is complete, tap Save enter a name for the sequence then tap Save to keep it!

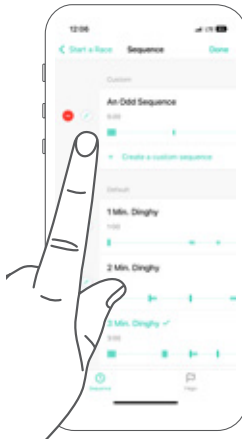

### Deleting a Sequence

To delete a custom sequence, tap "Edit" in the sequence selection page then tap "-" next to sequence to be deleted. *You cannot delete the sequence that is currently set to run.* Select a sequence you want to keep first, then go into edit mode to delete.

### Editing a Sequence

Tap "Edit" on sequence selection screen

Tap the edit icon

Tap the box to edit

You can add signals or remove all from that box  
"Save" when done

### Sharing a Sequence

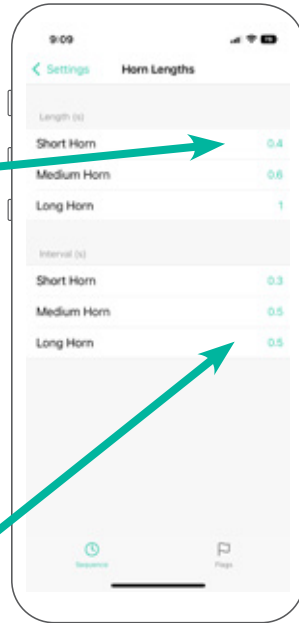

Tap the share icon and share by email

*Other sharing options are not supported*

## Horn Settings

Tapping the gear icon on the main app page brings you to a page where you can customize horn durations

If default horn durations don't suit you, change them here

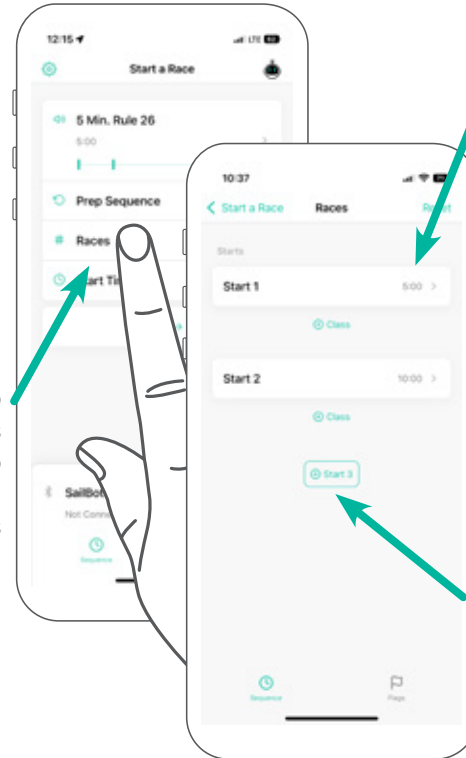

Change the pause interval between horn blasts here

## Rolling Starts Settings

Variable sequence durations in rolling start profiles require a custom sequence. Visit our YouTube channel for a tutorial on how to accomplish that.

Tap # Races to setup Rolling Starts

Start time advances per sequence duration. All starts must use same sequence.

SailBot will bear all costs of return shipping to owner and will reimburse any shipping costs incurred by the owner, except with respect to any Ineligible Product, for which owner will bear all shipping costs.
